30W Metal Optical Fiber Laser Marking Machine Laser Marker

Portable Optical fiber laser marking machine output beam quality, fast, stable performance, simple marking operation, widely used in: sanitary ware, food packaging, tobacco marking, beer marking, beverage marking, pharmaceutical packaging, medical equipment, glasses and clocks, auto parts, plastic paper, electronic hardware.

Main Features

- 1) High precision marking, swift, engraving depth controllable.
- 2) Applied on most of non-metal material.
- 3) Excellent beam quality, high photoelectric conversion efficiency, good performance and can be competent at fine processing.
- 4) Windows interface adopted, compatible with CORELDRAW, AUTOCAD, PHOTOSHOP,

etc.

5) Support PLT,PCX, DXF,BMP and other formats, execute SHX, TTF font directly, support automatic code, serial number, batch number, two-dimensional bar code marking, and garphic anti marking function available.

Technology Parameter

Model	RL-30P
Laser Power	30w
Laser Type	Fiber laser
Graphic Format Supported	DXF,PLT,BMP,JPG,PNG,TIP,PCX,TGA,ICO,
Marking Speed	≤8000mm/S
Max. Marking Depth	≤0.4mm
Laser Wavelength	1064nm
Marking Lines	0.06-0.1mm
Minimum Line Width	0.06mm
Minimum Character	0.15mm
Resolution Ratio	0.01mm
Net Weight	80kg(different configuration has small difference)
Unit Power	≤500W
Optional Spare Parts	Rotary/Protection glasses/outside red light/night light and other optional customized parts and so on.

Application

>Main materials

Metals (including rare metals), engineering plastics, electroplating materials, coating materials,coating materials, plastics, rubber, epoxy resin, ceramic, plastic, ABS, PVC, PES, steel, titanium, copper, gold and sliver and other materials.

>Applicable industries

Mobile phone keypad, plastic translucent keys, electronic components, integrated circuits

FAQ

Q: Can I get some discount if I order more?

A: Yes, The more you order, the more you save.

Q: How to choose suitable model?

A: Please provide a photo of the product you used before or advise us your needs, we will give suggestion .

Q: Why choose your company?

A: We are a professional Industrial Solutions company in China. We're more familiar with customer's marking or engraving applications. So we're in a position to recommend a more suitable model and provide free professional technology.

Q: Do you have the manual of machine?

A: Yes, we can provide manual, CD software and video to help you operate the machine expertly.
